

Dear Dr. Henney,

I am writing to express my concern over the FDA's regulation of genetically engineered (GE) food, to ask that the agency's current policies be changed, and to support all the points in docket #00P-1211/CP1

☒ All GE Foods should be labeled so I am informed and have a choice.

☒ GE Foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing

☒ There should be a moratorium on GE Foods until long-term studies show they are safe for human health and the environment.

I think you should stop bio-engineering these products. People die from them. CC-6H 1-ADN-00. \$0.54 in mount Money Bros. (Additional Personal Comments:) Care about U.S. National favor is not good for US. My teacher almost died from it. Stop it! The schools are bad. One after died from this mess. You put crap - stop it now.
